

AGING IN PLACE DESIGN SERVICES

Designing spaces for long-term care needs in the comfort of home.

What is Aging in Place?

Aging in place refers to the choice to live in one's own home which has been designed to attend to changing needs that could have previously required a health care environment. This option can provide levels of dignity, mobility, and freedom unparalleled in typical senior living environments.

Examples of Aging in Place

- In-Law Apartments
- First Floor Master Bedroom Suites
- Elevators
- Accessible Kitchens & Bathrooms
- Universal Design

Who is DMS design, llc?

DMS design, llc is a full service architectural design firm that specializes in residential design with an area of focus in aging in place. Drawing on a rich background and experience in senior housing projects, DMS can provide an alternative solution to assisted living programs.

According to the United States census, there will be a spike in the age 60+ population from 43,043,000 in 2005 to 73,769,000 in 2020, an increase of 71 percent.

△ Adaptable Living Room, addresses current and future needs

In a 2010 American Association of Retired Persons (AARP) study, creating an in-law unit to care for a parent at home costs roughly one-third of the cost of a nursing home.

△ In-Law Suite provides independence while maintaining family nearby
◁ Adaptable Kitchen, addresses current and future needs
